

# Earth First

MALBEC

CRIANZA

Certified Organic Bio-d Mendoza

**Vintage:** 2021

**Varietal:** Malbec

**Appellation:** Luján de Cuyo, Mendoza, Argentina

**Tasting Notes:** Brilliant deep violet color emitting aromas of ripe red fruits perfumed with vanilla. A classic Malbec profile progresses ripe plums and dark fruits over the palate. Soft round tannins and a medium body make a second glass nearly obligatory.

**Production Notes:** 100% Malbec produced to display the true varietal expression with minimal inputs, reflecting the winery's "earth first" philosophy, backed by the certification of the USDA as a Certified Organic winery.

This is the absolute best organic wine for under \$20 that we have tasted. From Argentina's most important region, Mendoza, Earth First Malbec Crianza maximizes all the good things of Lujan de Cuyo; this region is home to some of the country's best wineries. The region offers sunny days, cool nights, the purest water and a long tradition of vineyard work. Earth First is committed to making great wines responsibly. The winemakers are entirely serious about their environmental mission, so much so that all the labels are hand printed, which reduces the carbon emissions due to the decrease by using mechanical labeling. Like all sustainable winemakers, Karim Mussi knows that the wine also needs to be great, and this one truly is a winner.

**Tasting Notes:** Brilliant deep violet color emitting aromas of ripe red fruits perfumed with vanilla. A classic Malbec profile progresses ripe plums and dark fruits over the palate. Soft round tannins and a medium body makes a second glass nearly obligatory!

The Earth First Malbec Crianza is the first Malbec Crianza Organically Grown!
